

K-LOVE informs me that their signal may be forced off the air due to a proposal allowing LPFM services priority over FM translators. K-LOVE provides a positive alternative to traditional radio stations in its commercial-free format and encouraging uplifting broadcasts. I can't count the number of times I've turned K-LOVE on and had my thoughts change from negative to positive during the length of a song or a DJ's commentary. K-LOVE makes it a priority to provide safe and encouraging listening to young ears, which is unheard of these days. Please consider K-LOVE's positive contributions to the community in your decision to prioritize broadcasts services. Through their national and regional broadcasts, K-LOVE reaches hundreds of thousands of people that just need a few words of hope and encouragement to help them through their busy day. Our great nation needs more community services such as K-LOVE provides for free.
